In Person & TEAMS Meeting**

Meeting Attendees: Recorded via TEAMS and sign-in sheet created

TOPIC	TIMELINE	RECOMMENDATIONS/ ACTIONS	FOLLOW -UP/ PERSON & DATE
Members / Guests	@0902	General Membership –	
Agenda	@0902	Emailed on 6-1-24 for review. Subsequent email was sent to P. Dyer for posting to the website.	
Approve Minutes	@0910	The April & May minutes were approved as read in the June meeting and sent to P. Dyer on 6-12-24	
<u>Open Issues</u>			
Auto fill or preset value guides	@0906	Are being worked on	
Gender X	@0907	Is Active and “Decline to Declare” will not be made as a choice as it is not in the IT data dictionary which would mean NEMESIS is not supporting it. Nothing is seen in the near future to add this as an option.	
RASS Worksheet	@0907	Completed and active for use. Validation rule # 4668

In Person & TEAMS Meeting**

National Registry # vs the State License #	@0910	Patrick will ask IT what the procedure is if a non-EMS crew members or non-licensed personnel should be entered to be visible on the printed report.	Sennett
Connect 2024	@0913	Justin Kim from RMFD stated that he would volunteer to go Connect this year and details would be forwarded to him by Klein about the conference. July 24-26.	
Superior Level I Critical Care	@0915	Using the critical care license ID should give those having that cert all the necessary medications and procedures listed.	
Trauma Database Print report and EMR	@0930	A possible update to the trauma database with a new print report. Not sure what the impact that will be for our form at this time. EMR (emergency medical record) direct message technology is a reality and getting off the 3 rd party software would be advantageous and more cost effective.	
Stroke Alert fixed	@0945	Stroke alert rule was amended to only make the stroke alert turn red if the impression stroke was selected.	
School bus Worksheet	@0950	Asked if the committee could read through and agree upon a worksheet format that would be efficient and not cumbersome. Will remove more of the required fields and increase the number of spaces for occupants. Discussion continued to develop a tutorial on how to use the worksheet(s) and have them placed on social media or vector solutions.	
Patrick Sennett Update	@0956	Looking forward to using ESO for ePCR integration into hospital chart. This will help with patient matching and billing and obtain information quicker and easier.
