Wednesday, November 13th, 2024
In Person & TEAMS Meeting**

Meeting Attendees: Recorded via TEAMS and sign-in sheet created.

TOPIC	TIMELINE	RECOMMENDATIONS/ ACTIONS	FOLLOW -UP/ PERSON & DATE
Members / Guests	@ 0902	General Membership –	
Agenda	@ 0902	Emailed on 11-12-24 for review. Subsequent email was sent to P. Dyer for posting to the website.	
Approve Minutes	@ 0902	No October minutes to approve as the meeting was cancelled for that month.	
<u>Open Issues</u>			
DAI and Laryngoscope	@ 0913	DAI was removed from procedures through “meds/procs by cert level” also laryngoscope blade was reduced to it corresponding procedure through visibility rules. Ex. If you chose “Orotracheal Video Assisted” ProVu will be the only “blade” selection to make.	Klein
Stroke Alert Update	@ 0915	Stroke Alert was going red if the medic has abnormal S&S but didn’t think the patient was having a stroke. If a private ambulance transported a status post stroke patient but had to document an abnormal BEFAST it would flag red.	Klein
Separating BHE worksheet	@ 0920	Working on separating the SI/HI and Decisional Capacity worksheets so they are easier to use and more appropriate to document.

In Person & TEAMS Meeting**

RASS Power Tool	@ 0925	The RASS power tool has been turned on and is available to use however the Validation rule still will point to using the worksheet until a system memo can be created highlighting the change then switching the rule over to the RASS power tool.	Klein
LP35 Update	@ 0926	MPFD stated that they have started to use the LP35 without issues. The update that was pushed through as of the date of these minutes is a BETA test version and not the full version. It is known what the full version will include. The release notes in the university section of Image Trend could be a resource should you want to know more. Full functionality should be released by Jan. 2025.	Klein Hayes
Billing with ImageTrend	@ 0930	Patrick Sennett was in contact with Mike Paddock (IT VP of Software) in mid-November. It seems that Kno2 and IT have “merged” services where there is some confusion on how pricing and services are charged and distributed. PS stated that a tiering of services related to pricing should be made available for agencies who just wanted a basic service. PS also stated that agencies that had access to the full version with access to patient record data could potentially do inappropriate things with that access. There was no resolution to this issue but there will be further conversation regarding this.	Sennett
Pertinent Negative & See Attached Med List	@ 0935	We are trying to get a PN button repurposed to “see attached med list” to satisfy validation rule #2524. Waiting for update and tabled to the next meeting.	Klein Sennett
POLST in attachments	@ 0940	Looking for POLST in eOther.09 (external electronic document type) not found. Waiting for update and tabled to the next meeting.	Klein Sennett
Patrick Sennett Update	@ 0942	School Bus Auto Fill (preset value) added to eDisposition.31 and will work the same as MPR auto fill button.	Sennett
